EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Spalding on 05/19/2004.

The application has been amended as follows:

Canceled Claims 6-10, and 15-25 without prejudice or disclaimer.

Claim 1. (Currently Amended). In line 2 after "therapeutic vaccine" inserted -- inducing cellular response --

Claim 3. (Currently Amended). In line 3 after "CIN," deleted "equine sarcoid"

Claims 1-5, 11-14, 32, and 33 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are free of art, since the prior art composition and method are directed to prophylactic treatment of human papillomavirus rather than treatment of papillomavirus infection. The Office is of an opinion that in view of the post filing teaching such as Stanley M. A. (Expert Rev. Vaccine, June 2003; 2 (3): 381-389), and Frazer I. (Virus Research, 2002; 89: 271-274), which lend further support to the Applicants' disclosure the therapeutic vaccine for

treatment of papillomavirus infection requires cellular response and the prior art teaching is directed to induction of antibody response. Hence, the prior art method would not treat the papillomavirus infection; rather it has proved to be efficacious as prophylactics. Hence, the current claims that are directed to treating human papillomavirus infection are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
